DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of species 1 in the reply filed on 10/21/05 is acknowledged. The traversal is on the ground(s) that the species have common elements and are not restrictable. This is not found persuasive because each of the species has patentably distinct elements which is a requirement of a proper species restriction.

The requirement is still deemed proper and is therefore made FINAL.

Double Patenting

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1-6 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-6 of copending Application No. 10/709,034. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
